

COOKING INSTRUCTIONS

Because equipment varies, use the following retherm methods as a guide to achieve an internal temperature of 74C (165F).

Bulk products in a steamer or oven:

- Product may be tempered under refrigeration at 4°C (40°F) for no more than 48 hours.
- Do not refreeze once thawed.
- Preheat oven to 190°C (375°F).
- If the apetito product is pouched, remove from packaging. Transfer to a stainless steel container and tightly cover with tin foil.
- If the apetito product is in an aluminum tray, it is ready to cook.
- Cook thawed product to reach an internal temperature of at least 74°C (165°F).
- Cooking times may vary. Always use a thermometer.

Bulk products in a retherm cart:

SINGLE PLATING:

- Product may be tempered under refrigeration at 4°C (40°F) for no more than 48 hours.
- Do not refreeze once thawed.
- Remove all packaging and portion.
- Cook covered for approximately 40 mins.
- Cook until internal temperature reaches 74C (165F)

BULKHEATING:

- Steamer or oven heating instructions also apply to bulk heating.
